PROFESSIONAL SUMMARY

Full-Stack Software Developer with 8 years of experience building and maintaining scalable web applications. Skilled in both frontend and backend development, with strong expertise in modern JavaScript frameworks and backend systems. Proven ability to deliver high-quality solutions, optimize performance, and collaborate effectively in both remote and on-site environments.

TECHNICAL SKILLS

I have strong experience in full-stack web development, working with technologies such as React.js, Next.js, Node.js, TypeScript, PHP, and Symfony. I am proficient in building responsive user interfaces using HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, and jQuery. On the backend, I have experience designing and developing RESTful APIs, implementing authentication using JWT, and applying MVC architecture principles.

I am also skilled in database management using MySQL, MariaDB and PostgreSQL, containerization with Docker, and version control using Git. In addition, I have hands-on experience managing and maintaining cloud-based servers using WHM and cPanel, along with basic experience with AWS services. I also have experience working with content management systems like WordPress and learning management systems such as Moodle.

I also have practical experience leveraging AI-powered development tools such as Cursor, Claude Code, and ChatGPT to enhance software development workflows, including code generation, debugging, refactoring, documentation, and rapid problem-solving. I use these tools strategically to improve productivity, accelerate development cycles, and support modern best practices while maintaining strong technical understanding and code quality.

Core Technologies: React.js, Next.js, Node.js, TypeScript, JavaScript, PHP, Symfony, HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery, MySQL, MariaDB, PostgreSQL, Docker, Git, WordPress, Moodle, WHM, cPanel, Cloudflare CDN, and AWS Basics

WORK EXPERIENCES

Full Stack Software Developer

IPASS Processing

Doña Segunda Complex C Bangoy St Davao City 8000 Davao del Sur

April 2021 – Present | Full-time | On-site

Responsibilities

- Develop and maintain internal systems using a range of technologies and frameworks, including CMS, LMS, PHP-based applications, and modern JavaScript frameworks.
